DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 1. Claims 1-7, 9, 10, 21 are rejected under 35 U.S.C. 102(b) as being anticipated by Murakami.

Murakami discloses a metal foil (9) and a metal plate (2), protrusion or rib (8) being fitted into a hole (4)(Fig 6) (re claims 1, 9, 10, 21).

Re claims 2, 3, 6, wherein the protrusion is formed by rolling an edge (8a) of the metal foil or bending an edge of the metal foil (Fig 6, 7).

Re claims 4, 5, a screw (10).

Re claim 7, the limitations of "drawing process" have been considered, but does not result in a structural difference. The presence of process limitations in product claims, which product does not otherwise patentably distinguish over prior art, cannot impart patentability to that product. In re Stephens 145 USPQ 656 (CCPA 1965).

Response to Arguments

Applicant's arguments filed 06-24-2002 have been fully considered but they are not persuasive.

Applicant argues (1) that the protrusion of applicant's invention is formed by deforming the metal foil along an edge of the metal foil, (2) that the tongue of Murakami is merely inserted into the slot and not fitted, (3) that the screw does not protrude through the leg portion. The examiner disagrees. With respect to (1), see Fig 6. With respect to (2), see Fig 7. With respect to (3) see Fig 6.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however,

will the statutory period for reply expire later than SIX MONTHS from the mailing date of this

final action.
